

OPEN WIDE! TIGER MASK

You will need:

- Pens, pencils, or paints
- Scissors
- Thin card (to stick the mask onto)
- Glue
- Scotch tape
- Paper straw or popsicle stick

1. Color or paint the tiger mask.
2. Cut the mask out. If the mask is printed on paper, stick on to thin card with glue.
3. Ask an adult to help cut out the eye holes.
4. Stick a paper straw or popsicle stick to the back of your mask using scotch tape or glue, so half is on the mask and half is off the mask. This will be your handle.
5. Now you can hold up your mask to your face and become a tiger!
