

What on Earth!

First

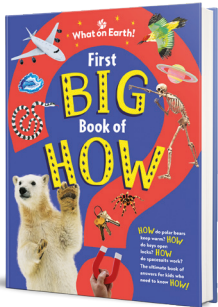

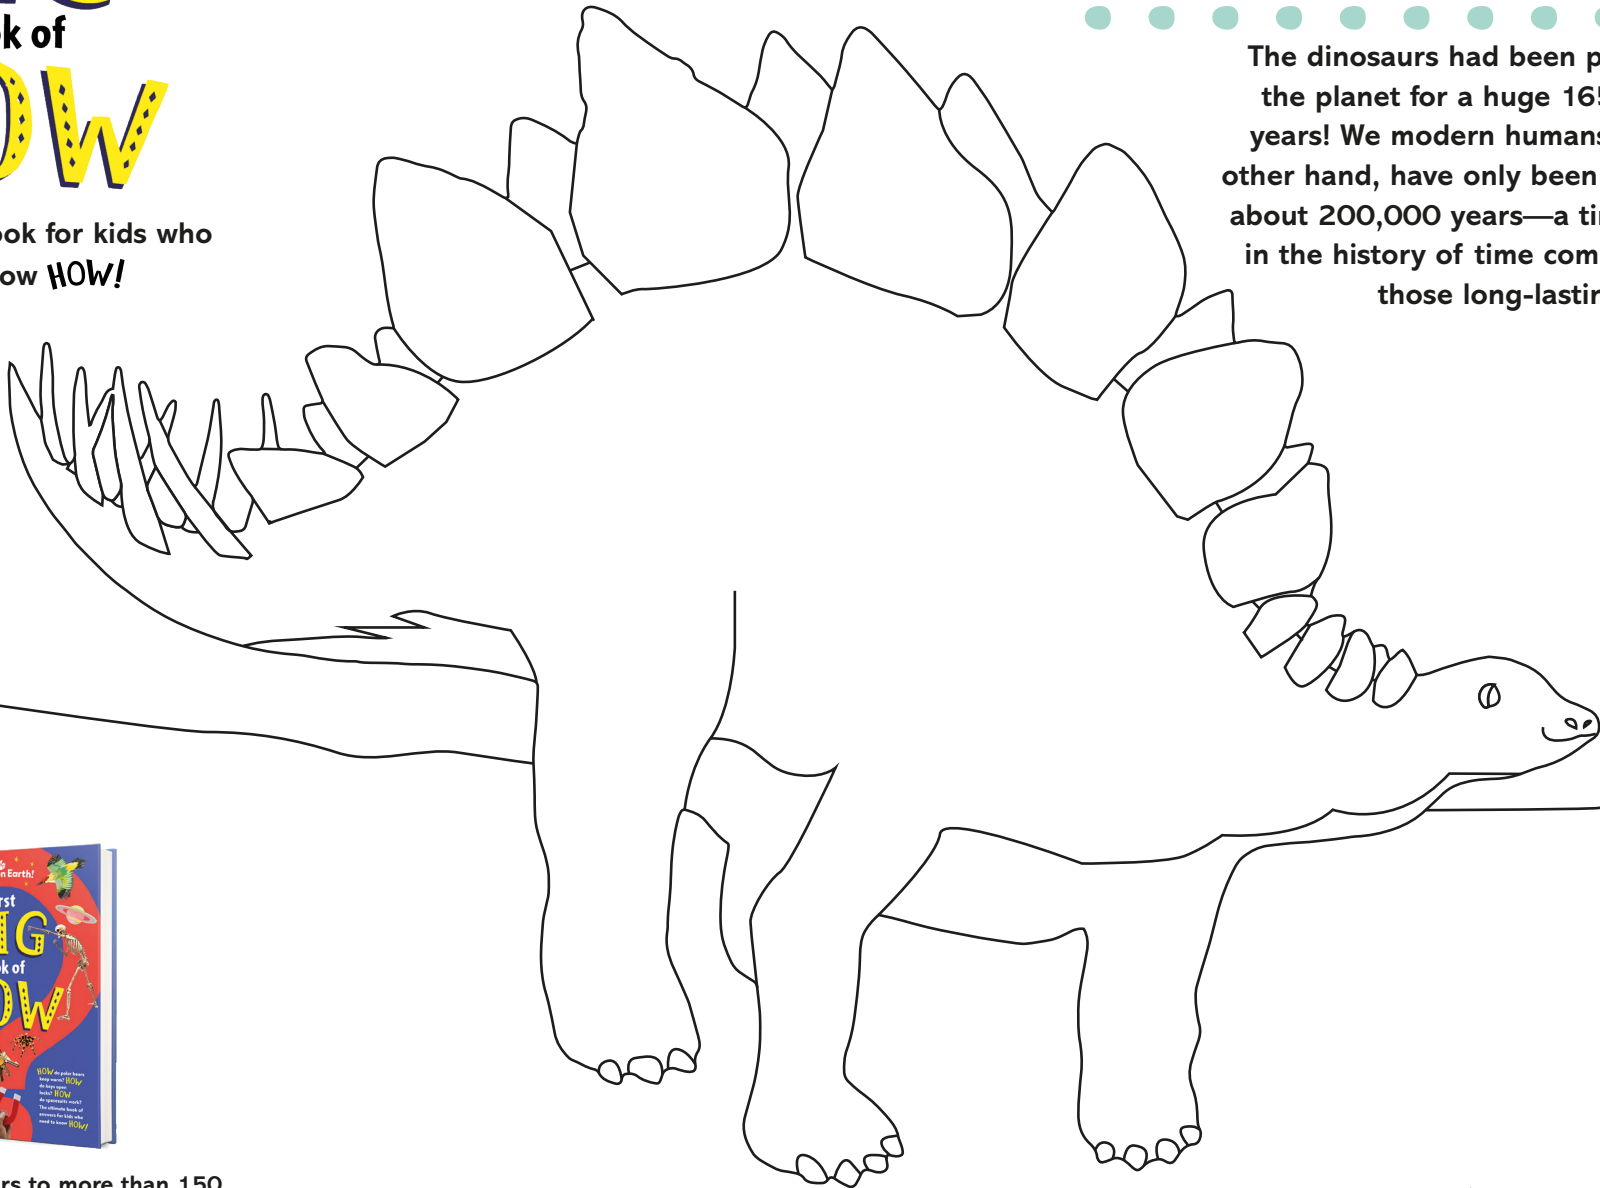

BIG Book of HOW

is the ultimate book for kids who
need to know **HOW!**

How long were the dinosaurs alive for?

The dinosaurs had been pounding the planet for a huge 165 million years! We modern humans, on the other hand, have only been here for about 200,000 years—a tiny speck in the history of time compared to those long-lasting dinos.

Discover the answers to more than 150
questions in the *First Big Book of How*
